Donn,
I agree with Barbara. I do not believe that the PRPs edits are significant to warrant a change. We do not need to add the work dedicated. I believe everyone working on this site is dedicated and it do not add to or change what we have. So, other than the changes we agreed to this morning, we should go ahead and revised the Fact Sheet and send it to everyone as final. We do not need to meet or discuss the Fact Sheet anymore. We should cancel the call for Friday, we are done with the Fact Sheet. Thanks CAS

I was looking at their edits and I don't see things EPA could incorporate because it uses terminology that isn't very understandable for a media statement. (terms such as remediate).

Though you can incorporate the word "Dedicated" when referring to the professionals working on the project as suggested. You should probably check with Cynthia for accuracy and appropriateness regarding the fish advisory bullet that IP rewrote (3rd sub-bullet of 3rd bullet).
